Master’s Degree Programme
Computer Science

Revised 31 August 2018
Structure of Master’s Degree Programme

- **Specialization:**
  - Two 30 ECTS specializations

- **Elective:**
  - Recommendation is a 3rd specialization.
  - A small number of elective courses in computer science is offered in addition to specializations. Project work (partly) is also a possibility.
  - Elective courses may be supportive rather than core computer science, e.g. extra mathematics courses.
  - There may be requirements for the composition of the study program in connection with possible admission. In this case mandatory courses replace the elective courses (partly).

- **Thesis:** Written within the area of specialization 1 or 2
Current specializations

Specializations are taught by active researchers in the corresponding field

Current offerings

- Algorithmics (30 ECTS)
- Cryptology (30 ECTS)
- Human-computer Interaction (30 ECTS)
- Programming Languages (30 ECTS)
- Ubiquitous Computing and Interaction (30 ECTS)
- Bioinformatics (30 ECTS)
